

Break Out into a Great Career: Here's how to do it: **NOW!**

-Take courses you like and need. Avoid “easy” classes. Push your brain to the max.

-Successful people continue to learn.

Expect to go back to school when you are an adult.

-Science & Math Classes are your friends. Take as many of these classes as you can.

Be a team player.

**-You must learn to :
Speak
Listen
& Write
effectively.**

-Careers with high paying dollars require applicants that are good scholars. In most cases you will need more than a H.S. education to get a good job with high wages.
